

Community Survey
Potential Future Use Options for the Caselton Mine Area

The Nevada Division of Environmental Protection (NDEP) and Greenfield Environmental Multistate Trust LLC, Trustee of the Multistate Environmental Response Trust (Multistate Trust) are committed in partnership with community stakeholders on the cleanup and future use of the former Tronox/Kerr-McGee Caselton Mine Area (the Site), including the Caselton Mill Site Area. The NDEP and Multistate Trust are pursuing a planning strategy for future use of the Site that is:

- Clear and transparent
- Aligned with community-support future uses and community interests
- Consistent with goals to address economic, social, and environmental challenges associated with past mining operations

The NDEP and Multistate Trust aim to integrate potential future use of the Site into cleanup plans. We are seeking community input for receipt of information about the Site and considerations for future use. As such, we hope to obtain your feedback on this community survey, and we greatly appreciate your input.

1) Name: _____

2) Address: _____

3) Phone: _____ Email: _____

4) How have you heard about the community meeting for the Site? Please check all that apply.

Mail Newspaper Word of mouth

Other. Please Explain. _____
